deeana.mcglynn@gmail.com

With over 20 years of extensive experience as a registered nurse, specializing in emergency care, I have developed a comprehensive understanding of various healthcare aspects. For the past 8 years, I have served as an adjunct professor, mentoring and guiding new nurses into the field. I am now excited to transition into a new environment where I can apply my wealth of knowledge and expertise as a Family Nurse Practitioner. My solid foundation in nursing and passion for patient care will be valuable assets in this role.

EDUCATION

GRADUATION MAY 2026

EXPERIENCE

JANUARY 2025 – APRIL 2026

FAMILY NURSE PRACTITIONER STUDENT, CLINICAL EXPERIENCE

Completed diverse clinical rotations across primary care, specialty, school-based, and emergency settings under NP supervision. Accumulated over 300 hours at CVS Minute Clinic providing care for patients ages 2–90, performing comprehensive history and physical exams, and managing acute and minor illnesses in a fast-paced setting. Completed over 150 hours in an inpatient vascular surgery setting, assisting with pre- and post-operative care, interpreting labs and imaging, and contributing to differential diagnoses and care planning. Additionally, completed over 100 clinical hours in a high school setting conducting physicals, managing acute illnesses, and monitoring ADHD medications, as well as over 40 hours in the emergency department supporting patient evaluation and care in a high-acuity environment. Delivered patient education focused on prevention, lifestyle modification, and chronic disease management while strengthening clinical judgment and interdisciplinary collaboration.

JANUARY 2023 – CURRENT

ADJUNCT DIDACTIC INSTRUCTOR- COMPLEX HEALTH, ELMHURST UNIVERSITY

Develop and deliver course materials aligned with the outlined objectives of the curriculum for both undergraduate and graduate students. Support students through orientation, advising, academic counseling, and guidance. Ensure a safe and conducive learning environment. Provide continuous formative and summative feedback to foster student development and achievement throughout the course.

2005 – 2013 & 2016 - DECEMBER 2023

RN, EMERGENCY DEPARTMENT - RRO, UCHICAGO MEDICINE ADVENT HEALTH

Provided patient care in the emergency department using evidence-based practices to achieve optimal outcomes. Participated in emergency response activities, including resuscitation, trauma management, and disaster preparedness, ensuring a coordinated and efficient response. Collaborated with physicians, advanced practice providers, nurses, and other healthcare professionals to coordinate patient care, facilitate consultations, and ensure seamless transitions. Pursued ongoing professional development through continuing education, certifications, and training programs to stay current with advancements in emergency nursing and maintain licensure. Held roles such as Clinical Coordinator, Stroke Nurse Advocate, Charge Nurse, Nurse Mentor, and Preceptor.

2018 - 2021

CLINICAL NURSING INSTRUCTOR, CHAMBERLAIN UNIVERSITY

Precept and instruct nursing students in clinical settings, specializing in Critical Care, Mental Health, Fundamentals of Nursing, and Community Health. Implement nursing standards and expectations through curriculum, program outcomes, and course objectives via clinical teaching and service to the university, community, health system, and profession.

2013 – 2016

RN, EMERGENCY DEPARTMENT, ELMHURST HOSPITAL

Conducted rapid and comprehensive assessments to prioritize patient care based on condition severity. Performed lifesaving interventions such as airway management, cardiac monitoring, medication administration, and wound care, adhering to evidence-based practices and protocols. Acted as a patient advocate, ensuring needs were met, effectively communicating with patients and families, and providing emotional support during crises. Utilized critical thinking skills to make timely and accurate clinical judgments, adapting care plans as necessary to address changing patient conditions.
